EDUCATION

- Kongu Engineering College** Erode, India
Master of Computer Applications (MCA); CGPA: 8.86/10 2024 – 2026
- Vellalar College for Women** Erode, India
Bachelor of Computer Applications (BCA); CGPA: 7.64/10 2021 – 2024

SKILLS SUMMARY

- Programming & Frameworks:** SQL | Flutter | React | Java | Python | AI/ML | RESTful APIs
- Databases:** Firebase | Supabase | PostgreSQL | MongoDB
- Developer Tools:** VS Code | Android Studio | Power BI | Git | Jira

EXPERIENCE

- ZenThink Technologies Pvt. Ltd.** December 2025 – April 2026
Mobile Application Developer
 - Developing a real-time Flutter application integrated with Supabase/PostgreSQL backend services, focusing on production-ready features, data-driven functionality, and Jira-based task tracking workflows.
 - Gaining hands-on experience in core backend concepts such as relational schemas, role-based data access, and real-time updates while contributing to scalable mobile architecture.
- Twincord Technologies Pvt. Ltd.** August 2025 – November 2025
Mobile Application Developer
 - Worked on a real-time Flutter project involving role-based modules (User, Owner, Admin) with integrations such as geolocation, Firebase Storage, and Razorpay payments.
 - Strengthened understanding of Flutter architectures and state management while contributing to scalable and maintainable application workflows.

PROJECTS

- Crowd-Intelligence-System (Python, YOLOv8, DeepFace, FastAPI, PostgreSQL, HTML/CSS):** An AI-powered analytics platform that detects crowd density and demographics from video using YOLOv8 and DeepFace, and presents real-time insights through an interactive web dashboard integrated with PostgreSQL.
- CourseHive — Mobile Learning Platform (Flutter, Firebase):** A peer-to-peer course platform where trainers upload video lessons and learners browse, preview, and unlock courses, featuring MVVM architecture, Riverpod, role-based access, and admin analytics.
- Smart Assistive App for Deafblind (React Native):** An AI-powered assistive app featuring a virtual Braille keyboard with haptic feedback and image-to-description analysis to help deafblind users understand surroundings and emotions in real time.
- AI-Powered Interview System & Resume Analyzer (React, Gemma AI, FastAPI, Firebase):** An AI system that generates dynamic interview questions, evaluates user responses, and provides resume insights using Gemma AI for structured improvements and professional feedback.

PUBLICATIONS

- Contextual Sentiment Analysis Using Transformer-Based Models**
Paper Presentation — International Conference on Electronics and Renewable Systems (ICEARS)
 - Presented a research paper on analyzing Tanglish chat messages using a Transformer-based NLP model (BERT) to detect emotions such as joy, anger, sadness, and fear.

HONORS AND AWARDS

- Finalist — TNWISE Hackathon, Rajalakshmi Engineering College, Chennai
- First Place — College-Level Ideathon (MCA), Kongu Engineering College — 3,000 Cash Prize
- First Place — Proof of Concept (POC) Presentation, Kongu Engineering College — 6,000 Cash Prize
- First Place — Technofest Hackathon, Kongu Engineering College

CERTIFICATIONS

- Oracle Certified Associate (OCA) — MySQL Implementation** July 2025
Oracle University
- Deloitte Technology Job Simulation — Coding & Development** July 2025
Deloitte
